

SmartSort™ Release Notes

Requirements

Microsoft Dynamics GP 2015 RTM must be installed. Microsoft Dynamics GP SmartList must be installed, and security must be set to allow access to alternate lookup windows (Advanced Lookups) in the SmartList dictionary.

Registration Keys

If updating from Dynamics GP 2013 or earlier, you will need to obtain new registration keys from your Microsoft Partner or EthoTech. This product is fully functional in the Dynamics GP sample company.

Installation Instructions

Please refer to the SmartSort Installation Guide for detailed installation and update instructions.

Build 14.00.008 Release Date December 11, 2020

Supports all EthoSeries 2015 releases for the new EthoSeries registration key model.

Problem Reports

When SmartSort was set up to sort the Users lookup window by Status, a pass-through sanScript error was encountered when the lookup window opened.

Build 14.00.001 Release Date January 1, 2015

Initial Dynamics GP 2015 release.
