SmartSort™ Release Notes

Requirements
Microsoft Dynamics GP 2016 RTM or R2 must be installed. Microsoft Dynamics GP SmartList must be installed, and security must be set to allow access to alternate lookup windows (Advanced Lookups) in the SmartList dictionary.

Registration Keys
If updating from Dynamics GP 2015 or earlier, you will need to obtain new registration keys from your Microsoft Partner or EthoTech. This product is fully functional in the Dynamics GP sample company.

Installation Instructions
Please refer to the SmartSort Installation Guide for detailed installation and update instructions.

Build 16.00.10 Release Date December 11, 2020

Supports all EthoSeries 2016 releases for the new EthoSeries registration key model.

Problem Reports
When SmartSort was set up to sort the Users lookup window by Status, a pass-through sanScript error was encountered when the lookup window opened.

Build 16.00.1   Release Date June 6, 2016

Initial Dynamics GP 2016 release.
